INERT British Naval WW2 (1943 Dated) 21 Inch C.C.R.Pistol Mark 1\*\* Fuse For The 21 Inch Torpedo In Original Transit Container. Sn. 15545 - 15545  
INERT This is a British naval WW2 (1943 dated) fuse for the 21 inch torpedo used exclusively by the ships and submarines of the Royal Navy. The fuse is made of nickel plated bronze and is contained in its original green painted steel waterproofed transit container. The transit container has four locking toggle clamps and two folding steel carrying handles. The lid has a waterproof rubber seal, which is compressed by the four toggle clamps. The fuse has a curved front with a glass window and a bronze rotary arming vane. The fuse is stamped on the front "21" C.G.R.PISTOL Mk1\*\* MOD1 also POINTER END FLUSH-DETS "OUT" DOWN- DETS "IN" in highlighted in red paint. T.491.D B.E.5117 10-43 (October 1943 date). Inside the fuse are various gears and electrical connectors with wiring attached. There are two celluloid covers over the interior sides of the fuse. There is also a large 3 inch screwed hole at the rear of the fuse for holding the gain. This impressive fuse measures approximately 11 ½ x 9 ½ x 9 ½ inches. No licence is required to possess this in the UK if retained as part of a collection or displays. The price includes U.K. delivery. Sn. 15545  
£1,200.00
