Choke1: None

Choke2: None

Moderator: None

Scope: None

This BB gun is a replica pistol based on the SandW Military and Police firearm. The MandP air pistol is a BB repeater powered by one 12g CO2 cylinder that hides in the grip of the BB pistol. An integrated accessory rail underneath the muzzle is a great place to add a tactical flashlight or an airgun laser. An element of realism is added with a 19-shot drop out BB magazine. The Smith and Wesson MandP CO2 pistol has a manual safety, double action trigger that's amazingly close to the actual handgun, and fixed front and rear fiber optic sights. This BB replica is not only a great BB gun for some fun plinking, but also makes a great target shooting and training pistol for SandW MandP firearm owners.
