The Under Lever Stutzen Airsporter was introduced by the Birmingham Small Arms Company in 1985. This is a near mint example in .22 calibre. It measures 39 1/2" overall with a 14 1/2" barrel. The rifle has a walnut full stock with contoured cheek piece and rosewood fore end cap. The stock has a finely chequered wrist for grip. It is fitted with sling swivel lugs, plaited leather adjustable sling and a rubber recoil pad the end of which bears the BSA piled arms logo. The weapon's barrel is stamped 'BSA Guns England .22 Cal' also with the BSA stacked rifles logo. The left side of the barrel is stamped with the serial number 'GR00557'. The bore is clean with crisp rifling. It has a ramped blade fore sight, adjustable rear sight & telescopic sight rail fitted with a Japanese ASI De Luxe 4x32 telescopic Sight with coated image moving optics. The optics are excellent. The weapon's metal work is in excellent undamaged condition and retains its original blue finish. The weapon loads and fires perfectly with a strong spring action. The price includes UK delivery.
