The new regulated version of an Air Arms favourite. World renowned S510 with recoilless action. The S510 has proven itself in competitions internationally as well as being great for use in the hunting field. A very well balanced rifle with a good shot count pre-charge to suit almost any purpose or discipline. This rifle fires upto 12ft/lb in power. This rifle has a sidelever action, a 10-shot self indexing magazine, a superb two-stage, adjustable trigger with a match-accurate ultra-carbine barrel.

We would recommend using a 3-9x40 zoom scope with this rifle.

This is the Non FAC rifle.

Please note the scope is not included.

Don't forget to order your 22 pellets with this product. Other Accessories are available in the accessories section.
