This is the latest version of the Silverback S.R.S 16 Inch Covert. The new M2 version comes fitted with a patented barrel mount designed by Desert Tech to reduce peak stress points.

Silverback rifles have been a must have for the airsoft sniper with great build quality and being easily upgradable to full power these are great bits of kit. the 16 inch version is the shortest of the range but as it is a bullpup you still get a long inner barrel.

The latest version now comes with an M-Lok Rail and is about 24% lighter than previous models.

These have not landed with us and are not due until may at the earliest. As more details become available we will add them to the listing.

You MUST be 18 or over to purchase this.

Please note this is a VCRA applicable Realistic Imitation Firearm. You must be UKARA registered (or have a defence under the VCRA) to purchase this as is, for more information please click here. Please contact us or state your UKARA registration number in the comments box when you order.

If needed we can spray this for you (at an extra cost of £15.00) so that it meets the requirements to allow anyone over 18 to purchase this. Please select this option from the menu above.
