RARE, 1960's South African No.9 Bayonet By Armcor Subsidiaries For No.4 SMLE Rifles & Scabbard. BAYO 50 - BAYO 50

These bayonets produced in the 1960's by Armcor Subsidiaries have a socket identical to the British No.9 Bayonet bayonet but with a blade from the UZI SMG bayonet. According to Skennerton these bayonets were made to fit No.4 rifles carried by South African Local Defence Force Commandos (see page 370 item 6 of Skennerton's book British & Commonwealth Bayonets). They were issued in both reinforced fibreglass scabbards and as in the case of our example steel scabbards from UZI bayonets. The bayonet has an excellent clean blackened 6 3/4" single edged blade and pommel with ribbed release button. The scabbard with frog stud has original black paint and no dents. These bayonets are not commonly found on the collectors market. Price includes UK delivery. BAYO 50
