This model was manufactured by several countries and this one was manufactured in Chatellerault in 1873. The steel single edged blade with fuller is undamaged with just light staining consistent with age. The blade is 22 1/2" long (27 1/4") overall. It has the correct steel hooked quillon with muzzle ring. It is stamped with the number "AB54258" which is also stamped on the top edge of the scabbard. It has a ribbed brass grip with flat spring and steel push button. It is complete with the correct scabbard made of sheet steel. The scabbard has no dents and has it's original strap bar.
