Description

The Russian built Ataman AP16 is an air pistol of outstanding quality. Made of high quality aluminium and an integrated pressure regulator for the high consistency shots. The barrel is shrouded, with a 11 mm dovetail mounting rail of pistol or red dot sights and it has adjustable open sights. The air pistol has a left side cocking lever and has a two stage adjustable trigger. It comes with a removable Air cylinder, one magazine and two fill probes. Extra magazines and air cylinders are available as extras.

The standard models have an ambidextrous grip and manual safety. The SP model has a Right or Left handed grip. The safety switch is not accessible with SP grip.

Price: £749.00
