WW2 1943 Theatre Made Fighting Knife Conversion From A Mauser Bayonet. ED 2206 - ED 2206
This is a WW2 German Mauser bayonet which has been field converted into an effective fighting knife. The blade has been shortened and sharpened into a stiletto shape. The crossguard has been filed down, as has the pommel. The wooden grips have what appears to be the name "Slim" carved into one side and 3 notches carved into the other. The blade is marked with the original manufacturers code of "COF 43" (1943) and "2862 Z". The leather scabbard is a standard sheath knife type with the addition of leg ties, retaining straps and reinforcing at the mouth. A very nice wartime field conversion knife. The price includes UK delivery. ED 2206
£295.00
